

# How do people with neurodevelopmental conditions experience health information and healthcare?

We want to talk to adults who:

- are aged 18 years or older
- currently live in Australia
- have a neurodevelopmental condition, whether formally diagnosed or self-identified

Please contact Kirsty for more information:

0405611543

**Share your experiences in the way that works best for you. Interviews can be done by phone, online, in person (where possible), or by email. We will work with you to make participation as easy and accessible as possible.**

This project is being completed by a student researcher, Kirsty Haywood, as part of a PhD project at The University of Western Australia (Ethics Approval number 2025/ET000873) under the supervision of Dr Kiah Evans, Dr Manya Angley, Dr Helen Wood and Dr Liza Seubert. If you have any questions about this project, please email: [kiah.evans@uwa.edu.au](mailto:kiah.evans@uwa.edu.au) or [kirsty.haywood@research.uwa.edu.au](mailto:kirsty.haywood@research.uwa.edu.au) or phone 0405611543.
